

We want you to experience Jingdezhen, China!!!

The Pottery Workshop (PWS) was established in 1985 in Hong Kong and the Jingdezhen PWS has been operating in Jingdezhen since 2005. We are located in The Sculpture Factory, a place where sculptors and potters along with many other artisans congregate to create and fire everything made of fine Chinese porcelain.

In May of 2009, The Pottery Workshop Education Center opened its doors to the public. This 560 square meter building previously housed two coal kilns, has been specifically designed as lecture hall/studio/classrooms for residents and groups to visit Jingdezhen. Our purpose is to create an educational platform for the growth of international/domestic ceramic artists, researchers, and students.

The cost of room/board/guide/studio will depend on your interests, how many people are in your group and the extracurricular activities you choose. Many groups choose to invite local masters for hands-on workshops, visit various factories in Jingdezhen, and visit villages which has historical importance to Jingdezhen in the region.

On behalf of PWS in Jingdezhen, I would like to invite you and your institution to create an unforgettable experience with us. With the aid of your institution's grants, scholarships, student senate funds, and club sales, we can make this happen. Jingdezhen is a place with a deep history of porcelain object making and we look forward to your arrival.

Smaller groups (4-10 people) may be eligible to take part in our inclusive Residency Program (2800RMB/person/week), which includes 24 hour access to air conditioned studios, room, board and studio assistance. Live work and eat at The Pottery Workshop.
